

Student Group Collaboration Fund – Key Information

There are so many societies doing amazing things, and we want to help you make even more happen! So, we've started the **student group collaboration fund**, where you could get cash for doing a cool event with another student group!

What can we get?

- If you meet all the criteria, then we will give you 20% of the cost of your event (up to a total of £100)
- So, if your event will cost £100, we'll give you £20 to help pay for it
- This pot is not exhaustive and will be administered on a first come first served basis

What do I have to do to be eligible?

- Be organising and running a collaborative event/project, which is organised by **two or more** student group committees (not including the media collective).
- You must apply **before** the event takes place and within grant deadline periods
- You can request **up to 20%** of the cost of the event, up to a total of £100
 - You'll need to attach a budget for the event. [You can download a template event budget here!](#)
- Show how all named groups are involved in advertising and organising the event. For example:
 - Have all group names in the event title
 - All groups have advertised their event on their respective pages/to their members
 - Anything further evidence you can provide of collaboration
- You must explain how this will benefit the groups involved. Why is this collaboration important – what will it bring to your members, how will it help you achieve your aims?

- If you are a sports club you must be collaborating with a society or peer support group as a primary partner – 2 or more sports clubs can't apply for this funding as this would qualify for the club's grant pot administered by uea+sport and the Sports Executive

How to apply

1. [Fill in the short form at this link.](#)

It will then go to our student reps at Societies Exec who will vote on your application. They meet once a month during term time. The deadline is one week before the meeting – you can find out the deadline and when they're next meeting, here:
